

December 2021

Exciting times ahead as dms splits its software division

What is happening?

Some of the services you use will be assigned to Shopcute.com Limited (a Jersey based company) from 1 January 2022. This includes LiveShip, SurfSeller, web hosting, email, domain services and any other non-fulfilment services.

Why is it happening?

The world of software grows ever more complex and with increasing demand for regulatory and marketplace compliance we feel this division of our business would be better placed operating as a separate entity.

What will it mean for me?

You can continue to use all the services as you do now and all pricing and terms and conditions will remain unchanged.

You will receive a separate invoice for these services and payment will need to be made to Shopcute.com instead of dms Jersey.

What next?

We're working on building the business and the products you already use, so in future we'll be able to better support the needs of all of our customers and provide a more agile response as well and creating new product offerings to improve your business.

We'll bring you updates as things progress and we look forward to sharing an exciting new year with all of our customers.

Feel free to direct any questions you may have to your usual contacts.
