

July 2024 features update

We've made some enhancements to SurfSeller and LiveShip which will be coming your way in the next few days.

New Amazon regions

Amazon India and United Arab Emirates are now available. They're included, so if you'd like them just ask and we'll enable them for you.

The available Amazon regions are now: Australia, Belgium, Canada, Egypt, France, Germany, India, Italy, Japan, Netherlands, Poland, Spain, Sweden, Turkey, United Arab Emirates, United Kingdom and United States.

Product catalogue

Buying Price

When creating a product the currency of the *Buying Price* defaults to the merchants currency rather than the first in the list.

For LiveShip customers, the buying price can be set to automatically update from last Purchase Order by setting the option in *Settings > Merchant settings*.

Settings > Merchant settings

Financial year end month	12
Normal Stock Allocation Profile	Maximum everywhere
Low Stock Allocation Profile	Maximum everywhere where stock falls below 0
Reporting category 1 name	Reporting category A
Reporting category 2 name	Reporting category B
Reporting category 3 name	Reporting category C
Update catalogue buying price from last PO	<input type="checkbox"/>
 The settings below does not update as there is a risk of losing a large amount of data. Seek guidance if you wish to make changes.	
Home currency	GBP
Catalogue data source	Magento GBP Website
<input type="button" value="Save changes"/>	

Data items

Additional data items can now be stored on the product in preparation for potential features around recycling and returns, product ordering and regulatory requirements.

- QR code data
- Carton Size
- EU repairability score

The screenshot shows a 'Base product information' form. Several fields are highlighted with a green border: 'QR Code data 1', 'QR Code data 2', 'QR Code data 3', 'Carton quantity' (set to 50), and 'EU repairability score' (set to 1). Other visible fields include 'Supplier reference' (SEE-0099), 'Brand' (Supermagic), 'HS Code' (120991:Vegetable seeds, for sowing), 'Country of origin' (United Kingdom), 'Dropship supplier' (None), 'EAN' (677788880736), 'Dimensions' (50 x 140 x 3 mm), 'Weight' (25 g), 'Components' (1), 'Product owner', 'Reporting category 1', 'Reporting category 2', 'Reporting category 3', 'Postal restrictions', and 'Notes'.

The EAN is now permitted to be empty and no longer automatically fills with all zeroes.

Manufacturer/brand renamed throughout to *Brand* to reflect it's use and release the label *Manufacturer* for the actual manufacturer in future.

Product categories

When in Product > Categories clicking on a leaf category shows the products in the category.

Suppliers

Suppliers can now be listed, hidden, created and updated in *Goods In > Suppliers* bringing structure to the data. Any unwanted automatically created transitional suppliers may now be hidden, so they no longer appear in LiveShip or SurfSeller.

The screenshot shows a table with the following columns: Reference, Short name, and Legal name. The first row contains 'A0001', 'ACME', and 'ACME North & South Norwich Enterprise Services plc'. There are 'Edit' and 'Hide' buttons next to the first row. A 'Returns' row is also visible. A 'New' button is located at the bottom left of the table.

Reference	Short name	Legal name	
A0001	ACME	ACME North & South Norwich Enterprise Services plc	Edit Hide
Returns	Returns		

For a supplier the full address and contact details can be added.

The screenshot shows a form for adding supplier details. The fields are: Reference (A0001), Short name (ACME), Legal name (ACME North & South Norwich Enterprise Services plc), Address (Unit 765, Giantsized Business Park), Town/City (Bigtown, Superplace), Postcode (SP1 1AA), Country (United Kingdom), Phone (01234567890), and email (admin@acme.com). There are 'Back' and 'Save' buttons at the bottom.

- Reference – An external reference, such as allocated by your accounting software.
- Short name - used in the selection boxes for Purchase orders and also made available in SurfSeller. This is the only item required to create a supplier.
- Legal name – The full name of the supplier.

When creating or amending a Purchase order the Supplier is selected from a list and must have been created first.

Goods in > Draft purchase order > Amend

Supplier name: ACME

Purchase Order Number: []

Description: []
